**19.6.010 SIGN REGULATIONS:**

**A. PURPOSE:**

A sign permit is a Type 1 permit which is administratively approved by the Planning Commission.

The purpose of this ordinance is to preserve and maintain the quality and unique historic character of the city. It is to promote and

protect the public welfare, health, safety, and aesthetics by regulating existing and proposed signs.

The City of Granite Falls believes it is important to encourage business owners to advertise their businesses, products and/or services to potential customers in an effective and appropriate manner that helps the businesses to thrive.

It is also recognized that unregulated signing within the City may result in the following problems: accidents resulting from visual confusion between advertising and traffic control signs; the collapse of improperly constructed signs; distracting demand for attention which may cause accidents and be injurious to health, creation of urban blight, destruction of natural beauty and loss of property values.

The intent of this Ordinance is to regulate the number, size, location, height, illumination, character, and other pertinent features of signs, in order to provide adequate identification and advertising for business, and access to advertising signage in a manner that will promote for fair economic competition and at the same time protect the public health, safety, and welfare of the City.
